Nursery Sales

Not confident in your seed starting skills? Want to save time buying one- or two-year old plants?

Plan to visit **Beaux Arbres** to see native plants in the demonstration gardens and pick up some wildflowers in 4" or gallon pots. We will be open summer weekends (hours TBA); other hours by chance or appointment.

Beaux Arbres' 2016 season starts with a booth at the **Rare and Unusual Plant Sale**, Central Experimental Farm, Ottawa on Sunday, May 15th, 2016 9am - 2 pm.

The list of species available as potted plants will be somewhat different than this seeds list. We will have a selection of spring bloomers such as **early saxifrage**, **pussytoes** and native **violets**. We also have a small selection of some of the most decorative native shrubs such as **shrubby cinquefoil** and **chokeberry**.
